

# Year 6

Autumn Term 2024

# English – Role play

In Year 6 the children imagined what it might be like to be on a ship in a storm...

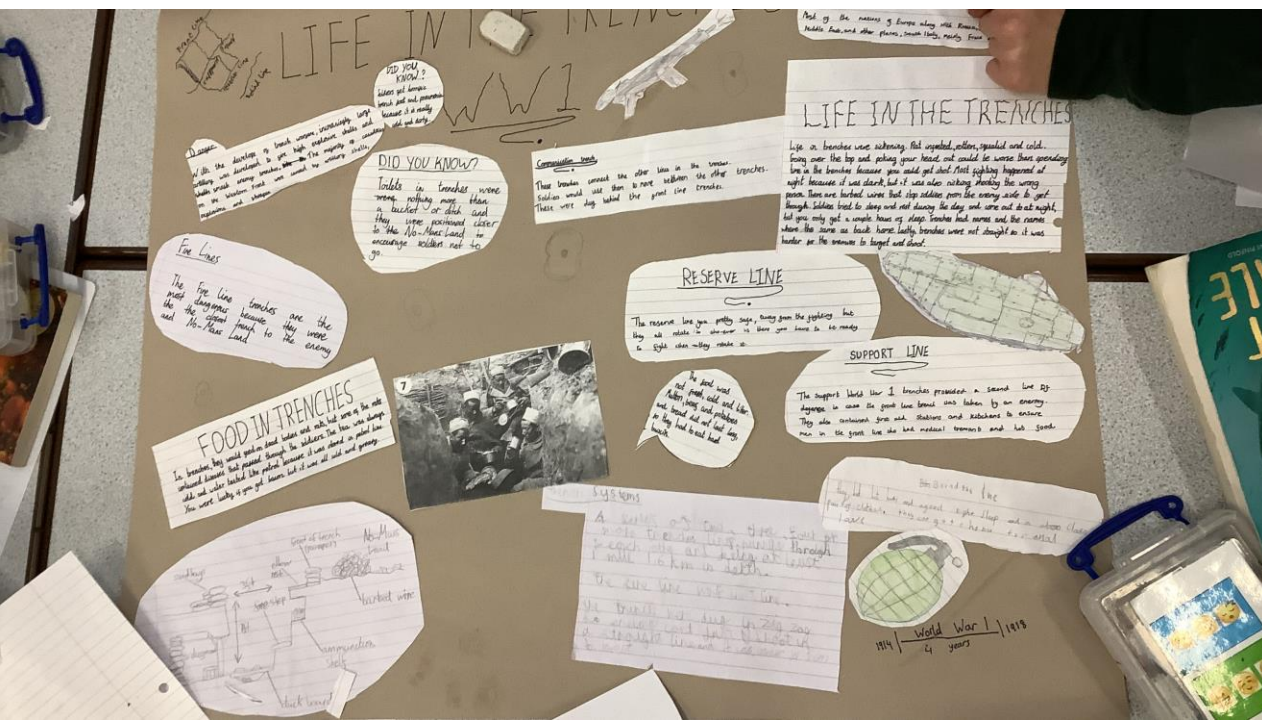

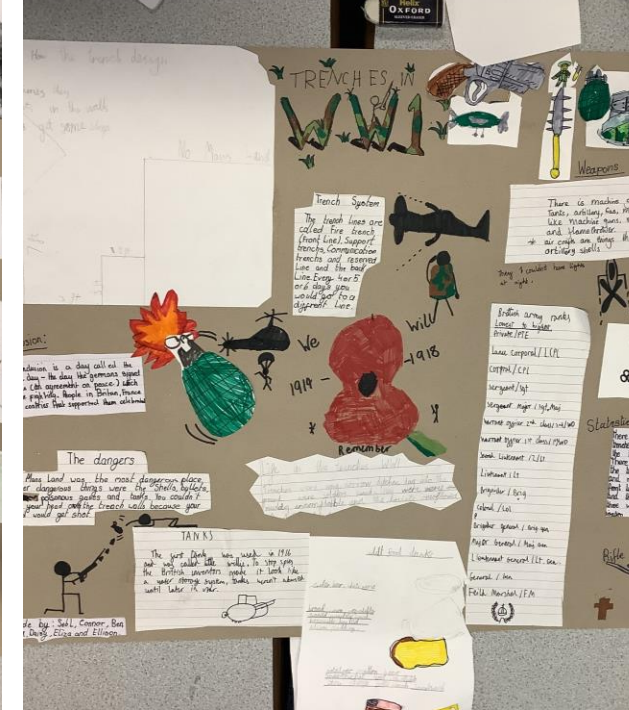

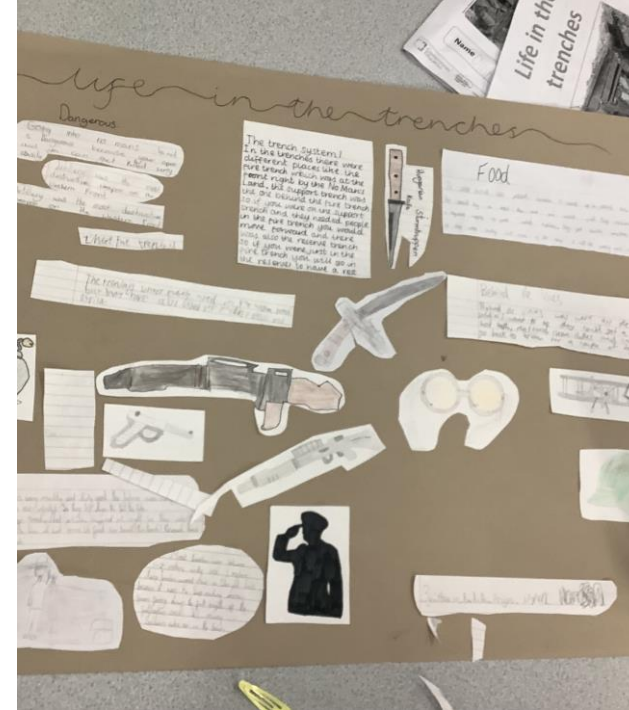

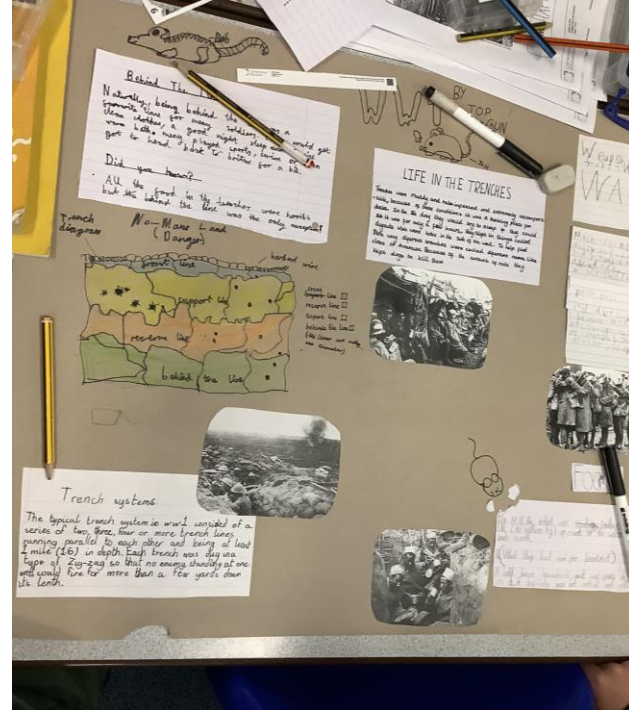

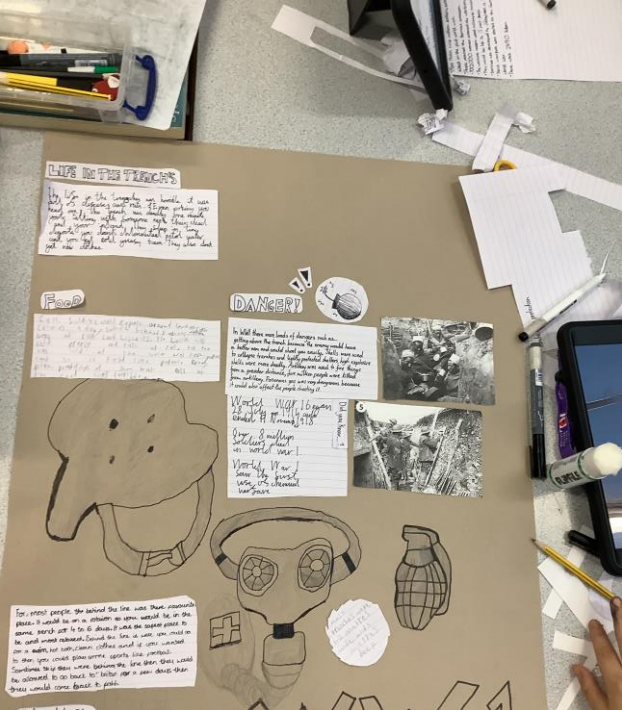

# Maths

In maths we have been learning how to solve long multiplication, along with square numbers and cube numbers. Also in maths we learned about prime numbers and factors of numbers up to 100.

By Connor

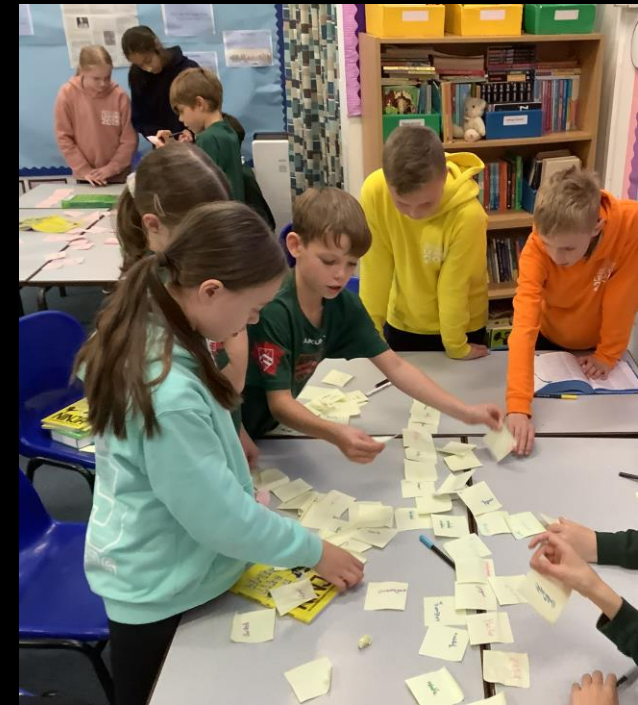

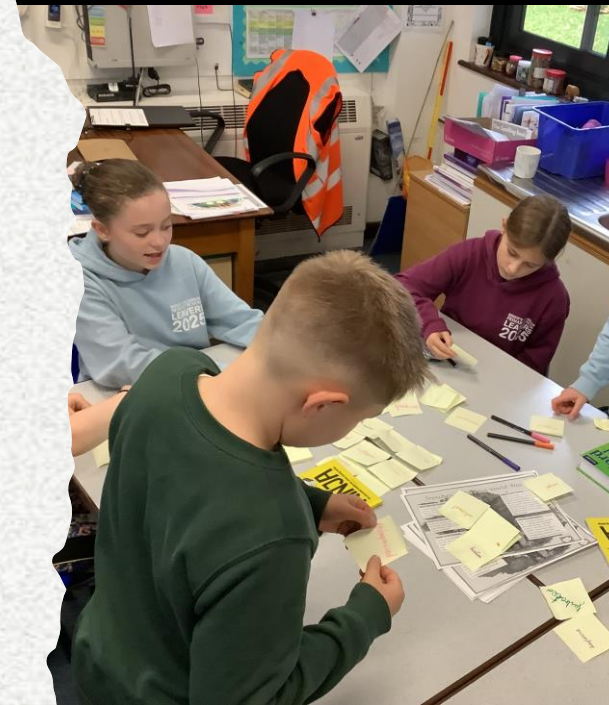

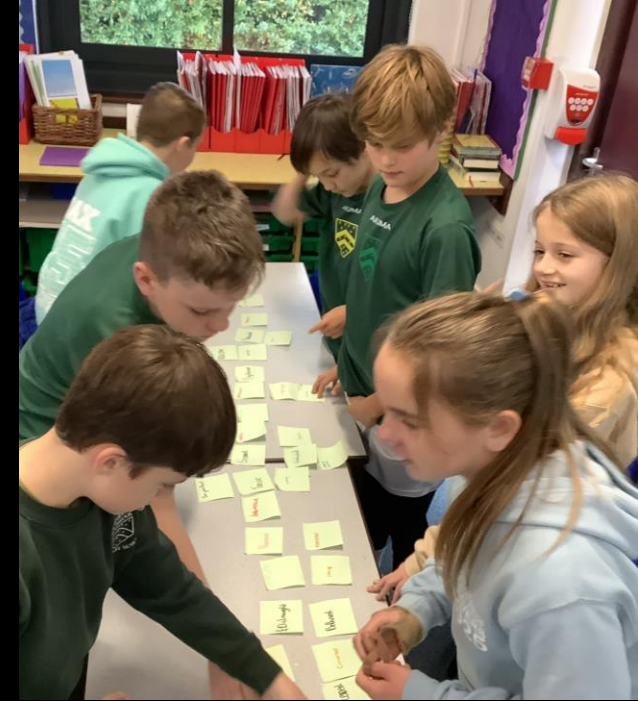

# History

In history we made posters about World War I and what caused the war to happen.

By Connor

# PSHE

In PSHE we have been thinking of different words that can describe our feelings and emotions, comparing how 'big' they are.

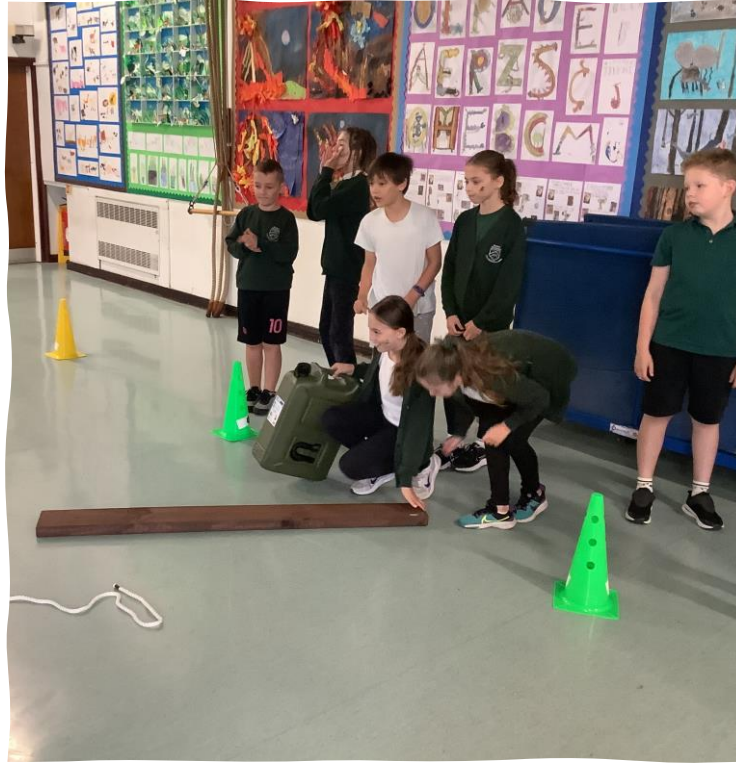

# Music

In music, we have continued to learn how to read music notation to play our brass instruments.

# Commando Joes

---

# Science

In science we have been studying a unit about Evolution and Inheritance. Inheritance is when the mother and father both mix their genes to make a baby. The baby will have characteristics of both parents.

# Computing

In computing we have made codes for games called Splatty Bug and Gorilla Code on Purple Mash. We managed to finish our games and play them.

# RE

In RE the curriculum changed so we have thought about our world views and made Eco-Church posters. Eco-churches are non carbon emission churches with greenhouses, solar panels and rainwater collection systems.

# Manor Adventure

We stayed at Manor and it was a weekend we had all looked forward to. There were so many activities to do including: grass sledging, caving, rock climbing, archery, high ropes, hill walk, canoeing, kayaking and fun in the dormitory hallway where we played lots of games together. The food at Manor Adventure was exemplary and on the Sunday we were served a Sunday Lunch. There wa also an unlimited supply of juice.
