

# Love For All Hatred For None

## PEACE SYMPOSIUM - COVENTRY

*In the current global climate, the importance of peace has never been greater*

In a world facing division and uncertainty, effort for peace has never been more essential. We believe this effort for global peace should start in local communities. Join us as we come together to share ideas and build understanding for peace. Let's explore how small acts of compassion can lead to lasting peace in our neighbourhoods and beyond.
